

Protective Security

State Government Security, incorporating the State Government Protective Security Service operates under the State Buildings Protective Security Act 1983 and has been providing protective security to the people and property assets of the Queensland public sector for over fifty years.

We perform a wide range of security services that include:

- on site security including empowered officers
- mobile patrolling
- building services coordination
- security consulting
- alarm monitoring in accordance with AS2201
- government identification card production

Our well trained and equipped Security Officers are supported by state of the art technology ensuring that we deliver security services of the highest standard.
